

Horizons Engineering Inc is a growing Civil, Environmental and Structural Engineering and Land Surveying firm with 8 offices locations across New Hampshire, Vermont and Maine.

Horizons has an immediate opening for a Civil Engineer with project management experience to support our growing company. **This position will report to our Newmarket, NH office** and would be responsible for civil engineering design and permitting of municipal, residential, commercial, energy, and institutional projects with a project management role. This person will be responsible for managing projects and developing new clients in the NH seacoast area and throughout Maine.

Our staff at Horizons is a close-knit group of hard-working individuals that value client service, design innovation, and a no-nonsense approach. The successful candidate will have a strong work ethic, desire to learn, and interest in working on a wide range of civil engineering projects throughout northern New England.

Essential Job Duties:

- Project management of civil engineering design for municipal, commercial, residential energy, and institutional projects including site design and permitting
- Responsible charge of civil engineering design
- Coordination with clients and regulators
- Budget and schedule management including Horizons inter-office staff management
- Prepare reports and permit applications related to civil engineering projects
- Design various civil engineering-related projects including drinking water distribution, wastewater collection, stormwater management, road, and drainage improvements
- Bidding, Contract Administration, and Construction Services

Skills and Qualifications:

- Bachelor of Science in civil engineering or related field;
- 10 years of professional experience in the practice of civil engineering in northern New England or similar setting; Less experience will be considered for the right candidate
- NH and ME PE License are required, and VT license is highly desirable
- Experience with AutoCAD design software including Civil3D;
- Technical experience in water and wastewater infrastructure, stormwater, and site design and permitting in New Hampshire, Maine, or similar regulatory environment;
- Sound understanding of civil engineering fundamentals including stormwater/drainage design, surface water hydraulics, water and sewer systems and roadway/parking design
- Strong technical, organizational, and communication skills;

Benefits:

- Competitive salary and insurance benefits including health, dental, and life
- Paid holidays and personal time off
- Company 401k
- Continuing education support
- Supportive work environment with ample opportunity for career advancement

Interested Candidates should forward a resume and cover letter to:
