

# Environmental Scientist

Horizons Engineering, Inc., a multi-disciplinary civil, structural and environmental engineering, water resource consulting and land surveying firm, has an immediate opening for an environmental scientist to join our rapidly growing team with a variety of exciting projects in progress. We are looking for an enthusiastic and talented individual to become part of our team. The current position would be able to work from our office in Littleton, NH and will likely involve frequent collaboration with our other New Hampshire, Vermont, and Maine offices.

The position involves assisting environmental project managers and other members of our team with groundwater sampling, soil sampling, oversight of test pitting, ESA site walks and report writing.

## **Main Responsibilities**

- Site inspections
- Local and state records research
- Provide contractor oversight
- Conduct field activities including soil boring advancement, ground water monitoring well installation, groundwater sampling, vapor intrusion assessments, ground water elevation surveys, etc.
- Data reduction
- Technical report writing and general office/administrative duties

## **Skills and Abilities Required**

- Self-motivated with a strong desire to work hard, learn, and successfully face new challenges
- Strong attention to detail
- Excellent written, oral, and interpersonal communication skills
- Ability to interact with clients and local and state agencies
- Computer skills (Word, Excel, etc.) are a must
- Ability to complete field work including lifting up to 40 lbs., walking undeveloped sites, with occasional field days requiring several miles of hiking; and
- Experience with AutoCAD design software including Civil3D a plus

## **Education and Experience**

- BS in environmental science, engineering, or a related science field
- 1 – 3 (or more) years of experience conducting ASTM Phase I & II Environmental Site Assessment activities
- Experience conducting assessment and remediation on projects in NH, VT, and ME desired
- Valid driver's license and reliable transportation are a must
- Current OSHA 40-hour HAZWOPER certification desired

**Benefits of the position include:**

- Competitive salary
- Medical and Dental benefits
- Flexible Schedule
- Paid vacation and sick time
- Company 401k
- Professional development assistance
- Continuing education support; and
- Supportive work environment with ample opportunity for career advancement

Our staff at Horizons Engineering, Inc. is a close-knit group of hard-working individuals that value client service, design innovation, and a no-nonsense approach. The successful candidate will have a strong work ethic, desire to learn, and interest in working on a wide range of engineering and environmental projects throughout New Hampshire, Vermont, and Maine.

Interested Candidates should forward a resume and cover letter to:
