

Entry Level Civil Engineer – Conway, NH

Horizons Engineering Inc is a growing Civil, Environmental, Structural and Land Surveying firm with offices in Littleton, New London, Conway and Newmarket, New Hampshire; Sharon and Newport, Vermont, and Saco, Maine.

Horizons has an immediate opening for an entry level civil engineer to assist with civil and environmental engineering projects including construction services and observation, design and permitting of municipal, residential, commercial, and institutional projects. We are looking for an enthusiastic and talented individual to become part of our team.

The position involves assisting our construction manager and other members of our team with construction services assistance including observation, field data collection, civil engineering CAD design work/drafting, site design, drainage analysis using HydroCad and permit application preparation.

Our staff at Horizons is a close-knit group of hard-working individuals that value client service, design innovation, and a no-nonsense approach. The successful candidate will have a strong work ethic, desire to learn, and interest in working on a wide range of civil engineering projects throughout northern New England.

Essential Job Duties:

- Construction Services Assistance
- Civil Engineering design of municipal, commercial, residential and institutional projects including site design and permitting
- CAD Design work
- Prepare reports and permit applications related to civil engineering projects
- Design various civil engineering related projects including site grading, wastewater collection, septic design, road and drainage improvements, and drinking water treatment, distribution, and storage,

Skills and Qualifications:

- Bachelor's degree or higher in civil engineering or related discipline from an accredited institution;
- Minimum of one year of work experience in civil engineering is required;
- EIT certification;
- Experience with AutoCAD design software including Civil3D a must;
- Technical experience in water and wastewater infrastructure, stormwater, and site design and permitting in New Hampshire or similar regulatory environment;
- Sound understanding of civil engineering fundamentals including stormwater/drainage design, surface water hydraulics, water and sewer systems and roadway/parking design
- Strong technical skills
- Ability to complete field work including carrying equipment and walking undeveloped sites

Benefits:

- Competitive salary and insurance benefits including health, dental, and life
- Paid holidays, vacation and sick time
- Company 401k
- Continuing education support
- Supportive work environment with ample opportunity for career advancement

Location:

The current position is in our Conway, New Hampshire office, but we are flexible on location. Position will likely involve frequent collaboration with our northern New Hampshire and Vermont offices.

Interested Candidates should forward a resume and cover letter to:
