

Entry to Mid-Level Civil Engineer – Company Wide

Horizons Engineering Inc is a growing Civil, Environmental and Structural Engineering and Land Surveying firm with 8 offices locations across New Hampshire, Vermont and Maine.

Horizons has an immediate opening for an entry to mid-level civil engineer to assist with civil and environmental engineering design and permitting of municipal, residential, commercial, and institutional projects. We are looking for an enthusiastic and talented individual to become part of our team.

The position involves assisting project managers and other members of our team with field data collection, civil engineering, CAD design work/drafting, site design, drainage analysis using HydroCad, permit application preparation and construction services assistance.

Our staff at Horizons is a close-knit group of hard-working individuals that value client service, design innovation, and a no-nonsense approach. The successful candidate will have a strong work ethic, desire to learn, and interest in working on a wide range of civil engineering projects throughout northern New England.

Essential Job Duties:

- Civil Engineering design of municipal, commercial, residential and institutional projects including site design and permitting
- CAD Design work
- Prepare reports and permit applications related to civil engineering projects
- Design various civil engineering related projects including site grading, wastewater collection, septic design, road and drainage improvements, and drinking water treatment, distribution, and storage,
- Construction Services Assistance

Skills and Qualifications:

- Bachelor's degree or higher in civil engineering or related discipline from an accredited institution;
- EIT certification;
- 0-5 years of work experience in civil engineering is preferred;
- Experience with AutoCAD design software including Civil3D;
- Technical experience in water and wastewater infrastructure, stormwater, and site design and permitting in New Hampshire or similar regulatory environment;
- Sound understanding of civil engineering fundamentals including stormwater/drainage design, surface water hydraulics, water and sewer systems and roadway/parking design
- Strong technical skills
- Ability to complete field work including carrying equipment and walking undeveloped sites

Benefits:

- Competitive salary and insurance benefits including health, dental, and life
- Paid holidays, vacation and sick time
- Company 401k
- Continuing education support
- Supportive work environment with ample opportunity for career advancement

Interested Candidates should forward a resume and cover letter to:
