

Horizons Engineering is looking for a New Hampshire Designer of Subsurface Disposal Systems to join our team and provide these high-quality services to our clients using state-of-the-art equipment. You will be working with a dedicated and diverse team of civil engineers, surveyors, and geologists on a variety of residential, commercial, institutional, energy, and commercial projects.

We encourage our employees to cultivate a high level of collaborative thinking through a laid-back and flexible work environment. We offer an outstanding benefits package that is well beyond other organizations here in the northeast, very generous and competitive pay, flexible PTO, a wonderful work/life balance and team culture, a great place to grow and learn, develop essential skills, and take advantage of opportunities for growth through continuing education and career advancement.

A qualified candidate should have a sound working knowledge of the procedures and practices required in site evaluation with the ability to prepare and submit subsurface disposal system plans to local and state agencies for subsurface disposal system approvals. We are looking for an enthusiastic and talented individual to become part of our team. The current position will be located in one of our New Hampshire offices and has the potential for continued growth and responsibilities for the right motivated person.

Job Responsibilities

- Ability to collect field data, Test Pit and Percolation Testing,
- Strong AutoCAD compatible software background,
- Working under the direction of various project managers in a team environment,
- Ability to meet deadlines while producing work with a high level of accuracy,
- Strong problem-solving skills, with the ability to communicate both orally and in written form to clients and co-workers, and,
- Valid driver's license.

Education

- Two-year Associates Degree in a Civil, Survey or related discipline, OR two years of subsurface disposal design

Qualifications/Requirements

- Certification/Licensed Designer of Subsurface Disposal Systems in New Hampshire
- Ability to schedule workload efficiently,
- AutoCad Civil 3D Capabilities or compatible software experience.

Interested candidates should forward a cover letter and resume to:
