

## Entry Level Geologist/Water Resource Engineer

Horizons Engineering, Inc., a multi-disciplinary civil, structural and environmental engineering, water resource consulting, and land surveying firm, has an immediate opening for an entry-level to 3-year experienced geologist to assist with field work of municipal, residential, commercial, and institutional projects. We are looking for an enthusiastic and talented individual to become part of our team. The current position would be able to work from our office in New London, NH (basing the position in other offices would be considered for the right candidate) and will likely involve frequent collaboration with our other New Hampshire, Vermont, and Maine offices.

The position involves assisting environmental project managers and other members of our team with groundwater sampling, soil sampling, general field data collection, supporting well pumping tests, ESA site walks and technical report writing.

Benefits of the position include:

- Competitive salary and medical benefits;
- Paid vacation and sick time;
- Company 401k;
- Continuing education support; and
- Supportive work environment with ample opportunity for career advancement.

Our staff at Horizons Engineering, Inc. is a close-knit group of hard-working individuals that value client service, design innovation, and a no-nonsense approach. The successful candidate will have a strong work ethic, desire to learn, and interest in working on a wide range of engineering and environmental projects throughout Vermont and New Hampshire, and Maine.

Specific requirements of the position include:

- Bachelor's degree or higher in geology, civil engineering with water resource coursework, or related discipline from an accredited institution; Master's Degree preferred;
- Ability to obtain New Hampshire Geologist-in-Training or EIT Certification
- Strong problem-solving skills, with mechanical knowledge;
- Competent with Microsoft Excel and Word.
- Ability to complete field work including lifting up to 40 lbs., walking undeveloped sites, with occasional field days requiring several miles of hiking;
- Experience with AutoCAD design software including Civil3D a plus; and
- Desire to work hard, learn, and successfully face new challenges!

Interested Candidates should forward a resume and cover letter to:

Horizons Engineering, Inc.  
Attn: Human Resource Manager  
34 School Street  
Littleton, NH 03561
