

Horizons Engineering is looking for a Senior Civil Engineer to join our team and provide high quality services to our clients using state-of-the-art equipment. You will be working with a dedicated and diverse team of civil engineers, surveyors and geologists on a variety of residential, commercial, institutional, energy, and commercial projects. We encourage our employees to cultivate a high level of collaborative thinking through a laid-back and flexible work environment, and we offer our team members competitive pay, outstanding benefits, and opportunities for growth through continuing education and career advancement. We have offices in Maine, Vermont, and Southern and Northern New Hampshire and are always looking for new and creative talent to join our team!

### Job Responsibilities

- Design of municipal, commercial, residential, and institutional projects including site design and permitting
- CAD design work
- Prepare reports and permit application related to civil engineering projects
- Design various civil engineering projects including drinking water treatment, distribution, and storage, wastewater collection, and road and drainage improvements
- Construction Services Assistance

### Education

- Bachelor of Science in Civil Engineering or related field (Masters preferred)

### Qualifications/Requirements

- Ten years' experience as a civil engineer
- Professional Engineer license is required
- Experience with AutoCAD design software including Civil3D
- Technical experience in water and wastewater infrastructure, stormwater, and site design
- Excellent problem-solving skills and understanding of Engineering concepts
- Sound understanding of civil engineering fundamentals
- Strong time management and technical skills and the ability travel to different sites
- Valid driver's license and clean driving record

### Location

- Ability to work in one of our many locations throughout New Hampshire, Maine, and Vermont
