Pomfret Office Moves to Sharon Vermont

Horizons Engineering office in Pomfret, VT moves to a more accessible location in Sharon.

SHARON, VT: Horizons Engineering, Inc., a Littleton, NH based civil and environmental engineering and land surveying firm, which has six locations across New England, moves their Pomfret office to Sharon, VT.

The new office is located at the intersection of two state highways adjacent to I-89 which provides easy access to surrounding towns. "We hope this location will allow us to be even more accessible to our clients," said Will Davis, Vice President of Horizons Engineering. "We also have worked with the Town of Sharon, Sharon Elementary School and the Baxter Library in town and we are excited to become an even more integrated part of this growing community."

The Sharon office is staffed with licensed professional engineers, a licensed wastewater designer, and an Engineer-In-Training (EIT). In addition, this office has the support of our 43 person firm offering civil engineering, environmental engineering, and land surveying services throughout northern New England.

"We look forward to increasing our presence in Vermont from our new location in Sharon," said Davis.

Horizons Engineering, Inc. was founded in 2004 in Littleton, and since has expanded to offices in New London and Conway NH, Newport and Sharon, VT and Kennebunk ME. Currently 43 civil engineers, land surveyors, environmental scientists, technician, and support staff are employed at Horizons Engineering. The company provides civil and environmental engineering, environmental permitting, hydrogeological, and land survey services throughout northern New England.

Additional information on Horizons Engineering, and the services they provide can be found online at www.horizonsengineering.com.
